English ••

OBJECTIVE

Creative and motivated self-taught frontend web developer with a passion for user-centric design and a strong foundation in web development technologies. Leveraging a combination of self-taught skills and academic knowledge to create engaging and responsive user interfaces.

PROJECTS

Quiz App with Fixed Timer :

I have added many features in this app like:
- Timer : only 15s will be available for selecting the answer. After time is goes off all the option will be cursor pointer none.
- And after selecting one option all the others option will be also cursor pointer none .
- When start button is clicked I have added 'exit button's display none'. Its ensures that exit while playing is disabled.
- When start button is clicked i have added that the time counting will be shown on the top right corner of the app.
- And a timeline will be visible according to the time .
- I have used HTML , CSS and JAVASCRIPT to create this app.

Add ToDo List App :

I have created this app to test my Reactjs knowledge :
- **This is a fully ReactJs web Application.**
- Simple and intuitive interface.
- Add, edit, and delete tasks.
- A dynamic placeholder text .

Link : https://reactjs-addtodo-app.netlify.app/

Personal Portfolio Website :

- Designed and developed a personal portfolio website to showcase projects and skills.
- Implemented smooth scrolling and interactive animations using HTML5, CSS3, BOOTSTRAP5, JavaScript.
- **You can view my others projects on github and projects section of my portfolio.**

Link: https://my-personal-portfolio-web.netlify.app/

PM Browser App :

• This is my first Web Application which I developed after my 12th class without a technical and programming skills .

• This app is contained all the maximum social media and shopping apps like facebook, whatsap, instagram, flipkart,amazon and many more. All of mentioned apps are added in PM BROWSER APP .You can download it from **Amazon App Store** .

CERTIFICATIONS:

Introduction to HTML & JAVASCRIPT Course
•SOLOLEARN CERTIFICATION
•This is a Online certification course from 2 September to 5 October 2023
